The Club operates a spectator safety management system incorporating Safety Staff and CCTV to ensure the safety of spectators when entering and leaving the stadium and whilst they are watching the event. Signs which govern hazards or relate to safety matters are placed prominently at all points of the stadium. Any safety matters which are specific to any event will be conveyed to spectators at the event via the PA system, the programme or such other means as may reasonably be required. Matters which concern public order problems will involve liaison between Stadium Management staff and the police.

The result of all inspections and tests will be recorded.

**With Staff:** The Club will encourage two-way communication with staff on all safety related matters. On match days, pre and post match briefings will take place. This will be supported by periodic Staff Training Sessions. Staff will be encouraged to report all safety related issues through the chain of command at any time and a record will be made of all such comments.

**With Other Agencies:** When deemed necessary, the Club will provide facilities for both pre and post match briefings between the Club and emergency or other external services. The Club will endeavour to provide representation at the appropriate level for all meetings with such services. The Club will attend meetings with the Safety Advisory Group and liaise with other agencies through joint exercises, planning and exchange of information.

## **Fire Precautions**

The Club will endeavour at all times to minimise the danger and effect of fire. This will be achieved by reviewing the fire risk assessments (FRA) regularly to identify all potential risks from fire, in order to remove or reduce the risk to an acceptable level. All changes to the FRA will be notified to Police Scotland and Scottish Fire and Rescue Service

A No Smoking Policy, which includes cigarettes, cigars, pipes and E cigarettes will be enforced vigorously throughout the stadium. The Club will maintain a policy of acting upon the advice of the Fire Authorities given from time to time and employing specific fire stewards, maintaining all fire safety systems in accordance with the FRA, as well as keeping litter to a minimum.

## **First Aid/Medical Provision**

The Club will ensure the provision of reasonable medical, ambulance and first aid cover at all events. The Club will employ a crowd doctor, when appropriate, who will be trained and competent to deal with emergencies at the stadium. The Club will engage ambulance services at a level appropriate

## **Stadium Management Contingency Plans**

The Club will take all reasonable steps to identify all possible types of emergency or system failure that could occur at the stadium while spectators are in the stadium and prepare contingency plans to deal with such incidents. Where such incidents could lead to a major incident, the Club will brief the emergency services and work with them to ensure that these plans are compatible with the major incident plans of those organisations. The Club has produced its Contingency Plans and will test their effectiveness on a regular basis.
